Lisanelly Shared Education Campus Omagh

**Draft South East Elevation** 

Perched atop the site on the former parade ground Arvalee enjoys easy access via it's own Gortin Road entrance. The site discretely secluded yet subtly connected to the other core schools and shared centres. Entirely single storey the building is divided into wings, each with their own attributes tailored to teaching methods. The offsetting of wings allows for maximum day light to reach the classes in addition to the internal courtyards formed throughout.

The spine of the building responds to the contours of the site and creates dynamic internal spaces that can delight, intrigue or relax.
