

EVOLVING THE SHARED APPROACH

OUR VISION

STRÜLE - where learning through shared experiences enhances the quality of education for all, promotes community cohesion and respects the ethos and identity of each school

The six schools value and support a culture of sharing so that learners have a strong sense of their identity while understanding and respecting others.

OUR PRIORITIES

Developing relationships which support collaboration

(Leadership & Management)

Establishing processes to enable effective sharing

(Provision)

Securing high quality outcomes for all

(Outcomes for Learners)

OUR ACTIONS

1
Ethos and Identity within Shared Education

2
Shared Staff Development

3
Shared Spaces

4
Shared Curriculum & Timetable

5
Shared Pathways & Transitions

6
Shared ICT Provision

IDEAS MODEL

Each workstream is divided into a number of tasks. We have developed the IDEAS model to guide staff as they develop their approaches to shared education at Strule. The model enables all staff to translate their 'ideas' into real learning experiences for students and staff.

STRÜLE AC:TIVATE
BROADENING HORIZONS

The Delivering Social Change Shared Education Signature Project has provided support to enable staff to develop their own shared education projects to prepare for the transition to the campus. This support will ensure that staff and students are building relationships with other schools before the campus opens.
