

Strüle Shared Education Campus is a game changer. With quality sports facilities designed on a fully inclusive basis, it leads the way in terms of sports provision within the education sector.

SHARED SPORTS CENTRE

The Shared Sports Centre is central to all six schools with short walking distances to reduce travel time during class changeovers. It features an eight court sports hall with retractable seating for special events, flexible changing and showering facilities and an adaptable open plan fitness suite.

SHARED SPORTS PAVILION

The Shared Sports Pavilion provides adaptable and flexible changing facilities adjacent to the synthetic and grass pitches. A central communal area provides a place of refuge in severe weather and can also be used for team assembly, weekend and third party use.

SHARED SPORTS PITCHES

The pitches are arranged to offer flexibility, maximise potential and provide opportunities for community use.

The floodlit synthetic pitches include two 2G sand carpet hockey pitches, a 3G rubber crumb rugby pitch with cross-play facility for two junior soccer pitches, and a reinforced sand mattress GAA pitch with cross-play facility for two intermediate soccer pitches or one rugby pitch. A six lane 100m running track is also included.

The grass pitches are designed to seasonally adapt with cross-play facility for a broad range of sports including GAA, rugby, soccer, athletics and cricket. They are located away from existing mature planting to promote a sensitive sustainable approach for the conservation of habitat and to avoid potential future issues with over-shadowing.
